Enjoy developing your confidence in your drawing abilities, with guidance and support from a skilled and highly practiced tutor.

In the lively workshop, Maggie will focus on helping people to extend their drawing ability, whilst allowing everyone to expand and to experiment.

The two days lead students through exciting and occasionally challenging and unconventional experiences that are devised to grow, liberate and loosen their drawing.

The workshop is for students with a range of experience as artists, from novices upwards. But it is not a closely “instructional” workshop.

Maggie has been a professional art teacher, tutor, and consultant for over 30 years. As an independent artist, she has shown enormous versatility, and is widely known for her ceramic figures and murals, for her drawings and paintings, and for her etchings, collographs, and linocuts.

Below is an application form that you can print off.

Contact Maggie at 23 King Street, Broseley. TF12 5NA Tel: 01952-881037
